

International Conference on Sustainable Solutions in Engineering Technologies and Earth Science (ICSSETES-26)

Review Process-

Any manuscript shall not be accepted or published in this conference without prior peer review. There will be a review process of manuscripts by three independent reputed reviewers with PhD degree who are conversant in the pertinent subject area.

Our blind peer review process follows the following steps and gives status of paper Accepted/ Accepted with minor revision / Rejected within stipulated time period.

Step 1: Author submits his/her manuscript to us by Microsoft cmt portal. First screening of all the manuscripts will be done on the basis of Scope/Plagiarism of the manuscript.

Step 2: In the second screening the manuscript goes to 3 reviewers allotted through conference management system (Microsoft cmt). The manuscript allotted to the reviewers as per their area of expertise. The review is blind review.

Step 3: Based on the reviewer comments the decisions are made whose details are given below-

- All 3 reviewers accepted the status of paper will be accepted.
- 2 reviewer accepted and 1 rejected the status of paper will be minor changes.
- 1 reviewer accepted and 2 rejected the status of paper will be major changes.
- All 3 reviewer rejected the status of paper will be rejected.

Step 4: If paper is accepted then Author will deposit fees to given account detail by editor. Author will send scan copy of **copy right form** (format can download by the website) by mail to editor.

Step 5: Publisher will publish the accepted paper if it is presented in the conference in next coming issue and give the information to author.
